

## Enabling the digital revolution in commodities

**At Commverse, we specialize in helping commodity businesses like yours modernize, streamline, and grow through smarter technology and deeper domain expertise.**

**We're a boutique consulting and solutions firm with a single focus — the commodities sector.**

**Our team brings decades of real-world experience in Agri, Energy, and Metals across C/ETRM implementation, system integration, product development, and data analytics.**

**With a hybrid delivery model spanning India and the US, we help you scale your transformation with precision and cost-efficiency.**

**System Implementation – Greenfield rollouts or legacy upgrades for C/ETRM systems, using structured frameworks and accelerators to speed time-to-value.**

**Consulting & Advisory – Support across RFPs, vendor evaluation, process mapping, and optimization to help you make better tech decisions.**

**Data Engineering & Analytics – Build a future-ready data foundation with AI/ML-powered analytics, ESG reporting, and market forecasting.**

**System Integration & Testing – End-to-end integration between trading, ERP, and finance platforms, supported by rigorous SIT and UAT methodologies.**

**Managed Services – Ongoing system support across L1–L3, including enhancements, training, release management, and user adoption.**

**Product Development – Build custom apps, workflows, and feature extensions tailored to your unique business needs.**

Your transformation, powered by our experience

**Everything we do is designed to reduce operational risk, improve visibility, and help you make smarter decisions.**

**Whether you're trading globally or optimizing local operations, we partner with you to create sustainable, measurable outcomes.**

Where we work best

**We support commodity businesses across:**

**Sectors: Agriculture, Energy, Metals**

**Regions: Global coverage including North America, EMEA and APAC**

**Client profile: Commodity trading companies with complex global operations**

**Systems: Deep experience with leading CTRM and ETRM platforms including enterprise systems**

**100% commodities focused – We serve only the commodity industry – no distractions, no diluted focus.**

**Decades of domain expertise – Our team has worked across the leading CTRM platforms and understands your systems, your pressures, and your goals.**

**Proven delivery model – We offer a strategic mix of onsite and offshore expertise to ensure flexibility, cost-efficiency, and high performance.**

**Strategic alliances – We partner with some of the world's leading technology vendors in the commodity trading space, enabling us to deliver a full spectrum of solutions.**

**Trusted by Tier 1 players – Our clients include multinational, Tier 1 commodity trading companies who rely on us for mission-critical transformation and support.**

Why clients trust Commverse

# Commverse Trader Intelligence - built for how you work

**We're building a next-generation GenAI + NLP-powered Commodity Intelligence Platform designed to empower your traders with faster, smarter decisions.**

**Real-time supply and demand insights across markets and seasons**

**Integrated P&L and position-based trade recommendations**

**20+ years of historical analysis and trend tracking**

**Intelligent market sentiment analysis and what-if scenario modeling**

**Built-in trader co-pilot to support day-to-day decision making**

**This isn't generic AI. This is built for commodity professionals like you — using your data, your markets, your goals.**

**Real-world impact: global position reporting success**

**For a global agri-trading giant, we implemented a unified position reporting solution across 150+ business units, replacing spreadsheets and fragmented systems with a centralized, automated platform.**

**100%+ improvement in post-go-live support productivity**

**90%+ SLA adherence across support and reporting**

**Streamlined risk visibility and faster decision cycles**

**Improved data consistency and reduced manual intervention**

**Increased adoption and confidence among users and executive leaderships**

## Let's start your transformation

**We don't just implement systems. We solve real business challenges.**

**If you're exploring new systems, struggling with legacy limitations, or ready to unlock your data's full value — we're here to help.**

**Let's start with a conversation about what's holding your team back and how we can help you move forward.**
